As Leica Gallery New York is about to enter its 20th year, we invite you to a “Gathering of Images.” You will find an exhibition of 62 photographers, with no all-encompassing theme, no single defining subject. Over the years, we have presented approximately 200 solo, two-person and group exhibitions. In a small way, this collection chronicles the Gallery’s history - with images ranging from documentary and street photography, to landscape, to portraiture, to music and more. We hope you will join us!
